MEDICATION REPORT ASSIGNMENT**

40/40

This assignment requires you to research and write medication information on 5 different medications being taken by your Keep Stepping partner. The information collected will be shared individually with your Keep Stepping partner. Medication Reports should be typed and are due by 4:30 pm on **Wednesday, October 10, 2018**. Two (2) points will be deducted per report for each day the assignment is turned in late. The assignment is worth a total of 40 points.

This assignment will address the following competencies:

Employability Skills – Communicate Effectively, Think Critically and Creatively, and Demonstrate Personal Accountability; and course competencies #2, #3, #5, and #12.

Complete each Medication Report in the following format and use each preceding line as a check off list to assure correct completion of the assignment:

- 1.) 5 / 5 Primary Diagnosis: (Why the medication is being taken)
- 2.) 5 / 5 Medication Name: (generic and name brand, if applicable)
- 3.) 5 / 5 General Category: (Is it a tranquilizer, anticonvulsant, etc...)
- 4.) 5 / 5 Effect: (Desirable effect(s) of the medication, physiological process by which it works) *treat job explaining how each med works*
- 5.) 5 / 5 Side Effects: (Undesirable effect(s) of the medication)
- 6.) 5 / 5 Indications: (Circumstances when the medication should be prescribed)
- 7.) 5 / 5 Contraindications: (Circumstances when the medication should not be administered.)
- 8.) 5 / 5 Reference source cited completely in AMA format. Copyright date must be 2013 to current.
